Forest Ecology and Management, 37 (1990)
Elsevier Science Publishers B.V., Amsterdam

Author Index

Ballard, T.M., *see* Majid, N.M. and Ballard, T.M.
Bamiduro, t.A., *see* Osonubi, O. et al.
Boardman, R. and McGuire, D.O.
The role of zinc in forestry
I. Zinc in forest environments, ecosystems and tree nutrition 167
II. Zinc deficiency and forest management: Effect on yield and silviculture of *Pinus radiata* plantations in South Australia 207
Bouchard, D., *see* Estivalet, D. et al.
Brockley, R.P., *see* Carter, R.E. and Brockley, R.P.
Carter, R.E. and Brockley, R.P.
Boron deficiencies in British Columbia: Diagnosis and treatment evaluation 83
Comerford, N.B., *see* Fiskell, J.G.A. et al.
Downes, G.M. and Turvey, N.D.
Lignification of wood from deformed *Pinus radiata* 123
Estivalet, D., Perrin, R., Le Tacon, F. and Bouchard, D.
Nutritional and microbiological aspects of decline in the Vosges Forest area (France) .. 233
Fiskell, J.G.A., Neary, D.G. and Comerford, N.B.
Slash pine and understory interception of micronutrients mineralized from sewage sludge applied to a sandy, acidic forest soil 27
Führer, E.
Forest decline in central Europe: Additional aspects of its cause 249
Gbadesgesin, R.A.
Effect of the ectomycorrhizal fungi *Rhizopogon luteolus* and *Pisolithus tinctorius* on growth of *Pinus oocarpa* in Nigeria 303
Gessel, S.P., *see* Zasozki, R.J. et al.
Grant, B.R., *see* Turvey, N.D. and Grant, B.R.
Greenleaf-Jenkins, J., *see* Zasoski, R.J. et al.
Hogg, D.S., *see* McLaren, R.G. et al.
Hunter, I.R., Hunter, J.A.C. and Nicholson, G.
Current problems in the copper nutrition of radiata pine in New Zealand: A review 143
Hunter, I.R., Will, G.M. and Skinner, M.F.
A strategy for the correction of boron deficiency in radiata pine plantations in New Zealand 77
Hunter, J.A.C., *see* Hunter, I.R. et al.
Le Tacon, F., *see* Estivalet, D. et al.
Lowe, A.T., *see* Madgwick, H.A.I. et al.
Madgwick, H.A.I.
Micronutrient workshop: Summary of discussions 219
Madgwick, H.A.I., Oliver, G.R. and Lowe, A.T.
Boron, copper, manganese and zinc nutrition of *Pinus radiata* plantations 37
Maguire, D.A., Schreuder, G.F. and Shaikh, M.
A biomass-yield model for high-density *Acacia nilotica* plantations in Sind, Pakistan 285

Majid, N.M. and Ballard, T.M.
Effects of foliar application of copper sulphate and urea on the growth of lodgepole pine 151
McGuire, D.O., *see* Boardman, R. and McGuire, D.O.
McLaren, R.G., Hogg, D.S. and Swift, R.S.
Some factors affecting the availability of native and applied soil copper in New Zealand soils 131
Neary, D.G., *see* Fiskell, J.G.A. et al.
Newton, M., *see* Pabst, R.J. et al.
Nicholson, G., *see* Hunter, I.R. et al.
Okon, I.E., *see* Osonubi, O. et al.
Oliver, G.R., *see* Madgwick, H.A.I. et al.
Oni, O.
Between-tree and floral variations in pollen viability and pollen tube growth in obeche (*Triplochiton scleroxylon*) 259
Osonubi, O., Okon, I.E. and Bamiduro, T.A.
Effect of different fungal inoculation periods on performances of *Gmelina* seedlings under dry soil conditions 223
Pabst, R.J., Tappeiner, J.C. and Newton, M.
Varying densities of Pacific madrone in a young stand in Oregon alter soil waer-potential, platn moisture stress and growth of Douglas fir 267
Perrin, R., *see* Estivalet, D. et al.
Porada, H.J., *see* Zasoski, R.J. et al.
Ramakrishnan, P.S.
Tropical forest diversity (Book review) 309
Ryan, P.J., *see* Zasoski, R.J. et al.
Schreuder, G.F., *see* Maguire, D.A. et al.
Shaikh, M., *see* Maguire, D.A. et al.
Skinner, M.F., *see* Hunter, I.R. et al.
Stone, E.L.
Boron deficiency and excess in forest trees: A review 49
Swift, R.S., *see* McLaren, R.G. et al.
Tappeiner, J.C., *see* Pabst, R.J. et al.
Turvey, N.D. and Grant, B.R.
Copper deficiency in coniferous trees 95
Turvey, N.D., *see also* Downes, G.M. and Turvey, N.D.
Will, G.M.
Influence of trace-element deficiencies on plantation forestry in New Zealand 1
See also Hunter, I.R. et al.
Zasoski, R.J., Porada, H.J., Ryan, P.J., Greenleaf-Jenkins, J. and Gessel, S.P.
Observations of copper, zinc, iron and manganese status in western Washington forests 7

Subject Index

Acacia
Biomass-yield model for high-density *Acacia* 285
Aridity, *see* Moisture regime, influence of
Boron, *see* Nutrient dynamics
Competition, shrub, *see* Pests, weeds and diseases
Copper, *see* Nutrient dynamics
Decline, *see* Pests, weeds and diseases
Deficiency, nutrients, *see* Nutrient dynamics
Douglas fir, *see Pseudotsuga*
Fungae, *see* Nutrient dynamics
Gmelina
Effect of fungal inoculation 223
Hardwoods, *see Triplochiton*
Hemlock, *see Tsuga*
Herbicides, *see* Pests, weeds and diseases
Iron, *see* Nutrient dynamics
Lignification
Lignification of wood from deformed *Pinus* 123
Manganese, *see* Nutrient dynamics
Microbiology, *see* Nutrient dynamics
Micronutrients, *see* Nutrient dynamics
Modelling
Biomass-yield model for high-density *Acacia* 285
Moisture regime, influence of
Effect of fungal inoculation on Gmelina under dry soil conditions 223
Densities of Pacific madrone alter soil water-potential, moisture stress, and growth of Douglas fir 267
Molybdenum, *see* Nutrient dynamics
Nitrogen, *see* Nutrient dynamics
Nutrient dynamics
Trace-element deficiencies in New Zealand 1
Copper, zinc, iron and manganese status in Washington 7
Slash pine and understory interception of micronutrients from sewage sludge 27
Boron, copper, manganese and zinc nutrition of Pinus 37
Boron, deficiency: a review 49
Correction of boron deficiency in radiata pine 77
Boron deficiencies: diagnosis and treatment 83
Copper deficiency in conifers 95
Factors affecting availability of soil copper 131
Lignification of wood from deformed *Pinus* 123
Copper nutrition of radiata pine: A review 143
Foliar application of copper sulphate and urea on lodgepole pine 151
Role of zinc in forestry
I. Forest environments, ecosystems and tree nutrition 167
II. Deficiency and forest management 207

Micronutrient workshop: Summary 219
Effect of fungal inoculation on *Gmelina* 223
Nutritional and microbiological aspects of decline in the Vosges Forest 233
Effect of ectomycorrhizal fungi on *Pinus* 303
Obeche, *see Triplochiton*
Pests, weeds and diseases
Densities of Pacific madrone alter soil water-potential, moisture stress, and growth of Douglas fir 267
Nutritional and microbiological aspects of decline in the Vosges Forest 233
Forest decline: Additional aspects of its cause 249
Picea
Nutritional and microbiological aspects of decline in the Vosges Forest 233
Pine, *see Pinus*
Pinus
Slash pine and understory interception of micronutrients from sewage sludge 27
Boron, copper, manganese and zinc nutrition 37
Correction of boron deficiency in radiata pine 77
Boron deficiencies: Diagnosis and treatment 83
Copper deficiency in conifers 95
Lignification of wood from deformed *Pinus* 123
Copper nutrition of radiata pine: A review 143
Foliar application of copper sulphate and urea on lodgepole pine 151
Role of zinc in forestry
II. Deficiency and forest management 207
Effect of ectomycorrhizal fungi on *Pinus* 303
Pollen dynamics
Between-tree and floral variations in pollen in *Triplochiton* 259
Pollution, *see* Pests, weeds and diseases
Pseudotsuga
Copper, zinc, iron and manganese status in Washington 7
Densities of Pacific madrone alter soil water-potential, moisture stress, and growth of Douglas fir 267
Sludge application, *see* Nutrient dynamics
Soil dynamics
Factors affecting availability of soil copper 131
Spruce, *see Picea*
Toorour syndrome
Lignification of wood from deformed *Pinus* 123
Toxicity, elemental, *see* Nutrient dynamics
Trace elements, *see* Nutrient dynamics
Triplochiton
Between-tree and floral variations in pollen 259
Tsuga
Copper, zinc, iron and manganese status in Washington 7
Yield prediction, *see* Modelling
Zinc, *see* Nutrient dynamics
